WORK EXPERIENCE

Daisy's Cakes – (https://github.com/PreDevz/Daisys-Cakes)

Hacienda Heights, California — *Freelance*
OCT 2022 - NOV 2022

- Team of 5 developers creating a full-stack MERN web application for the client Daisy's Cakes.
- Take the lead in agile project management to ensure ongoing development and client feedback with every iteration.
- Integrate AdminBro for the content management system so that the client can easily update material through a dashboard.
- Implement the Stripe API so that the client can accept tip donations, with future development to accept custom orders.
- **Technologies**: Created using MERN Stack, AdminBro CMS, Mongoose ODM, EmailJS, SwiperJS, SASS, and deployed to Heroku.

Pop Umai – (https://github.com/PreDevz/POP-Umai)

Riverside, CA — *Freelance*
AUG 2022 - SEPT 2022

- Full-stack content management system webpage for the client Pop Umai.
- Implement a modern UI for the clients-themed site that includes an events page to display upcoming and past events for customers and business patrons.
- Create a contact form that includes auto-reply to business inquiries, product inquiries, and general questions.
- Collaborated with three other developers to designate workflow and ensure the best git and coding practices.
- **Technologies**: Created with MySQL, Express.js, Handlebars.js, Node.js, Bootstrap, Sequelize and is deployed to Heroku.

Hey Dude Shoes — Warehouse Pick/Inbound Lead

Riverside, CA

Mar 2019 - NOV 2020

- Managed a team of 60 associates by working closely with clerks and logistics on distributing important retail orders to achieve daily and weekly business goals.
- Operated individual teams to work on vendor-specific requirements to ship accordingly.
- Planned inbound allocation of inventory to accelerate the pick-to-QA process.
- Maximized efficiency of the QA team by implementing SOPs.
